<i>Transactions made on the weekend or a holiday will be posted on the next business day.</i>
<i>Rewards will be posted by the 5th business day of the following calendar month.</i>

What's a cycle? A cycle is approximately one month, however, it will vary depending upon when the last business day of the month falls. **A cycle is from the last business day of the previous month to the second to the last business day of the current month.** Qualifying transactions must post to the **Easy Checking Account** before the end of the business day of the last day of a cycle.

Let's look at May 2019 for example. The cycle for May would include the last business day of the previous month (April) which would be April 30, 2019. It goes to the second to the last business day of the current month, which is May 30, 2019.

Therefore, the cycle for May 2019 would be from April 30, 2019 to May 30, 2019. That would mean the ACH deposit transaction would need to post to the Easy Checking Account during this time period to meet the Rewards Requirements.

Transactions made on the weekend or a holiday will be posted on the next business day. **Pending transactions will count toward the next cycle.**

Rewards will be posted within five (5) business days of the following calendar month. Let's look at the May 2019 example above. The cycle ends on May 30th, so rewards will be posted to the Membership Savings Account by June 7th which is the 5th business day.
